## Re: Changes to Recycling Services and Depot Closure

Dear Resident,

We are writing to inform you about important changes to recycling services in our community as part of Ontario's new **Blue Box Program**. This province-wide initiative shifts the responsibility for collecting and processing recyclable materials from municipalities to producers, effective **January 1, 2025**.

### Recycling Collection

- **No Immediate Changes:** During the transition period, the current collection schedule, list of accepted recyclable materials, and level of service will remain unchanged.
- **New Contact:** Starting January 1, 2025, for recycling inquiries, please contact **Miller Waste**:
  - Email: [area3@millerwaste.ca](mailto:area3@millerwaste.ca)
  - Phone: 1-855-752-3257

For the 2025 collection schedule and more details about the transition, visit: [www.circularmaterials.ca/deeperiver](http://www.circularmaterials.ca/deeperiver).

### Recycling Depot Closure

Effective **January 1, 2025**, the **Baggs Road Depot** will no longer accept recyclable materials. This decision, made jointly by the Township of Laurentian Hills and the Town of Deep River, aligns with Ontario Regulation 392/21, which classifies the depot as a "convenience depot" since all residents receive curbside collection.

- **Curbside Collection Reminder:** Ensure recyclable items are placed curbside by **7:00 AM** on your scheduled collection day.
- **Baggs Road Landfill:** Other landfill services, including reuse, e-waste, and hazardous materials, will remain available.

For more information about the regulation, visit: <https://www.ontario.ca/laws/regulation/210391>

### Waste Collection

There are **no changes** to waste (garbage) collection schedules, bag limits, or contact information. Please direct waste collection inquiries to **Deep River Public Works** at:

- Phone: 613-584-2000 ext. 127

Until January 1, 2025, all recycling inquiries should also be directed to Deep River Public Works.

We appreciate your cooperation and support as we transition to these important updates in recycling services. Together, we can make this change seamless and successful for our community.

Sincerely,

David McCarthy  
Director of Operations  
Town of Deep River

***Notice for Rental Properties***

*This notice has been sent to all properties in the Town of Deep River. Property owners are responsible for ensuring their tenants are informed of these changes.*
